

## THE EVENING BULLETIN

SATURDAY, AUGUST 22, 1885.

It is now certain that Tates majority will exceed 67,500.

SPAIN reports 4,100 new cases of cholera and 1,541 deaths.

A BRILLIANT comet, it is said, will make its appearance next month visible in this latitude.

ALL of the Pernia whisky detained at Philadelphia by direction of Commissioner Miller has been released.

The small-pox is so bad at Montreal that many establishments employing hands are giving employees the option of vaccination or quitting.

MR. A. F. RESSNER is announced in another place in this paper as a candidate for the office of Circuit Clerk. He was for a number of years deputy in the office and is thoroughly acquainted with all the duties. If he should be elected to the place he will render satisfactory service.

A MONOPOLY is being formed at Pittsburgh to control the natural production of gas. Coal, both anthracite and bituminous, and also petroleum, have been brought pretty well under the control of the monopolists, and it would be contrary to the established order of things if they should not make the natural gas wells pay tribute to their grasping greed.

The axe is working with encouraging activity at Washington, if it is true, as reported that Assistant Postmaster General Stevenson is making a Democratic Postmaster in place of a Republican removed, every six minutes. One hundred a day, which is now said to be the rate, amounts to six hundred a week and the very formidable total of 31,200 a year. It is hard to see how the axe could be made to swing faster than that and do effective work, but, it is reported, that after the weather gets cooler its motion will be made still more rapid. It is evident that the Assistant Postmaster General is a very robust officer.

Mason County Teachers' Institute. After the general exercises the superintendent stated that the subject of geography and map drawing was open for discussion. The superintendent knows how to draw the teacher into work. He called for a discussion on the subject and a few moments to give others a chance. Professor Kinney came forward and in a masterly way showed how he teaches this branch of knowledge. He does not like to make any secret of what he has taught. He likes off-hand drawings. He thinks we should not undertake to do anything that we cannot well do. It will cause the pupils to lose confidence in us, who then we came to teach. He said that what cannot do ourselves. He claimed that those who can draw best do not always know most about geography. Miss \_\_\_\_\_ says her pupils that can draw best know most.

The analysis of sentences was next introduced. If you want a general row among teachers, introduce the subject of grammar and you will get it, for nearly every one has his pet author and his own plan of grammar. The superintendent gave a very instructive talk on the subject. Professor Kinney did likewise. The superintendent gave several sentences which he wished to have diagrammed on the blackboard. Mr. M. J. Melford, Professor Kinney, Masey and others went to the board and complied with the wish of the superintendent, presenting different forms of diagramming. From the attention given by him, I inferred that Uncle Wilson was particularly interested in this subject.

After a few minutes intermission we had another literary treat in the form of reading from Professor. The Professor is a good epicentor and delights those who hear him.

Professor Wilson asked for the floor in behalf of the reading circle, which request was granted. He insisted on the teacher becoming members of same. Superintendent said he did not wish every teacher in the county would join it. There was a general interchange of views as to the value of institutes. Professor Berry said: "He was always benefited by attending." Professor Wilson said: "We are better off without them."

The queries were quite interesting. Professor Hixson was called for to aid in answering queries and did his part well. Professor Glasecock was required to give his views on the subject. The teachers had made such advancement in their knowledge of grammar during the session of the institute that they were making no mistakes.

A vote of thanks was extended to Professor Hixson for his services so sincerely given in conducting the institute; to Dr. Patterson for his able and entertaining lecture; to the officers of the Christian Church for the use of their hall; to Mr. and Mrs. C. C. Patterson for the use of the school building; to Superintendent Gilchrist for the impartial manner in which he conducted the institute, and for his zeal in trying to build up the cause of common schools. The vote of thanks was also extended to Prof. W. T. Berry, Secretary, and B. F. Williams, Assistant Secretary, for their services. After electing officers for the Mason County Teachers' Association.

Among our visitors for this day was Judge Whitaker, M. F. Marsh, Mr. Cady, Mr. Newell, Mr. Glasecock, Miss Julia Ross, Miss Lucy and Bette Wilson, Mr. and Mrs. McLean, G. R. Gill, John W. Cook, C. L. Johnson, Professor Hall, Mr. Kerr, John Tucker, W. S. Frank, Dr. J. P. Plaster, Uncle Roe Stockton, Mrs. J. Wilson, Mrs. Lou Ross and Rev. J. S. Hays.

### A Mad Man's Folly.

ON COLD, Pa., Aug. 22.—Robert H. Hodson, a wild, unarmed, railing, never here, has two grown up daughters who live with the family. Wm. Pearce a lunatic living near by, escaped from his keeper and went to the house of Hodson, who had been a soldier and a traveling peddler, and had a paroxysm and uttered the last chapter of the young ladies through an open window. The girls were sleeping soundly at the time. Pearce seized one of them by the arms and dragged her to the floor. She gave a loud shriek, and in a moment was seen, who was lying in the same room, awake and shrieked loudly for help. Mr. Hodson, who occupied an adjoining room, heard the cries of his daughter and ran to the scene of the disturbance. Mr. Hodson was severely cut and bruised in the encounter, and when rescued was about being pitched out of a second story window.

### Book Agent.

LOUISVILLE, Ky., Aug. 22.—An old and drunken book agent called at the house of C. H. Dewett, next door in Anderson Hill, and, finding the lights out, went around the side of the house and threw himself into a big dry goods box to slumber. In falling into the box he created a terrible racket that aroused the whole household. Dewett, who had awoke the house, ran to the scene, and, after shooting his revolver, broke into his house. He backed on his shooting iron and then aroused several neighbors. A lantern was secured and put into the hands of a Mr. Johnson, who had been a soldier and made a name for himself in the service. During the excitement of an anticipated bloody encounter with a gang of desperadoes, Col. Dewett accidentally discharged a pistol, the ball striking the floor. A ray of light from his lantern, which exploded, the burning oil being spattered over the floor, caused a general alarm. The book agent slept soundly all the while and was not discovered till the morning sun awoke him.

### SHORT SAYINGS.

The Day of the Dead Condemned for Hasty Readers.

Ninety lots at Louisville squirrel were sold at a public auction by order of the Hamilton County (O.) commissioners, realizing \$24,500. Meldox, Hobart & Co., Cincinnati, compromised with the government on their whisky irregularities, of which they professed to have been ignorant, at \$4,300.

The annual oil crop in New Mexico is demoralized by over-production and the Delaware & Hudson has in consequence reduced its scale from ten to fifteen cents per barrel.

## THE EVENING BULLETIN

ROSSER & McCARTHY,  
Publishers and Proprietors,  
To WHOM ADDRESS ALL COMMUNICATIONS

SATURDAY, AUGUST 22, 1885.

To all of you  
These words may reach  
To-morrow hear  
Your parson preach.

Pass the word along the line that English sparrows on toast are good.

CHICKEN thiess have been operating in East Mayaville, in the last few days. Lookout for them.

It is now said that Mr. Horace January will not be a candidate for re-election to the office of Mayor.

Mr. HARRY TAYLOR is a candidate for re-election as city clerk. He has been a faithful and efficient officer.

Mr. B. D. PARRY, who has filled acceptably the office of Circuit Clerk, is announced elsewhere as a candidate for re-election.

CAPT. E. W. FITZGERALD, has received his commission as United States Guager, and will enter upon his duties September 1st, in this city. He will relieve Mr. T. F. Rogers.

MR. L. H. LONG, of Lewisburg, has sent to the BULLETIN some very fine Bermuda sweet potatoes of his own growing. They are very large and of the best flavor.

The handsome cypress canoe made by Mr. Ed. Porter, and rafted a few days ago, was drawn by Mr. Ed. Myall, who held ticket No. 47. It is a very beautiful piece of work.

John Hauck's two-year-old lager beer will be found on tap at Joseph Diener's saloon, at 10 o'clock Monday morning. It is the only house in the city where this celebrated brand of goods can be found.

Now is the time to decide what exhibits you will have at the coming Fair. Do not wait until the last few days, but go to work and prepare your articles, and be ready for the exhibition when the time arrives for the holding of the Fair.

MR. STEPHEN F. TOLLE, of this city, has sent to the BULLETIN two tomatoes, one of which weighs two pounds and the other two pounds two and a quarter ounces. The largest of these tomatoes is slightly heavier than any we have seen this season.

MISS KATIE O'BRIEN, one of the most accomplished lady clerks in the city, and formerly with Messrs. Mullins & Hunt and J. W. Sparks & Bro., has accepted a position in the establishment of Messrs. Browning & Barkley where she will be pleased to meet her friends.

If the air of a cellar is damp it may be thoroughly dried by placing in it a peck of fresh lime in an open box. A peck of lime will absorb about seven pounds, or more than three quarters of water, and in this way a cellar or milk room may be dried even in the hottest weather.

A scientific gentleman, who has made a deep study of the surgical outfit of a mosquito, asserts that he carries four distinct tools: a lancet, two saws and a suction pump. Unfortunately, the "scientific gentleman" does not seem to have noticed the varmint's music box at all.

MR. WILLIAM McCLELLAND, of Lewisburg, left at the First National Bank, on Friday, a sample of his growing crop of tobacco, which is ahead of any specimen we have seen this season. One of the leaves is forty-one inches in length and twenty-six inches wide. He has twenty-four acres in all.

All the teachers of Mayaville and Mason County, are hereby notified, that at the session of the Institute a reading circle was organized for this county, which is in connection with, and under the State circle. All teachers are urged to become members. For information address Miss Julia E. Porter, Secretary.

The Camp Meeting. The camp meeting is now in full blast. The divines who will preach to-morrow will arrive on the night train. An interesting programme has been arranged for Sunday. In case of rain there is accommodation on the grounds for sheltering at least one thousand people. Let every body turn out.

The Flemingsburg Times Democrat says: We see in the Mayaville papers that some of the gardeners there are blowing about tomatoes weighing 14 pounds. That may do very well for Mayaville, but if a man wants to go up head here he must beat one raised by N. S. Dudley and presented to the Times-Democrat by Andrews & Amos. It tipped the scales at 2 pounds and 11 ounces.

The following is from the Frankfort Neoman: Thomas F. Leahy, the well-known teacher of book-keeping, is again in the city, and has no difficulty in organizing a class. He has taught most of our brightest and best young bookkeepers, and has a recommendation in almost every business establishment in the city. We have known Tom Leahy for more than thirty years, and know that there is not a better fellow or a more competent man in the business. What he does not know of book-keeping and the science of teaching it is not worth knowing.

Messrs. OWENS & BARKLEY, in the process of settling their business, find it necessary in the next thirty days to raise a large amount of money, and with that end in view have made a merciless cut in the prices of all articles in their stock. They wish it understood that this is not an idle advertising announcement but is literally the truth, as they are prepared to prove to all persons who will take the trouble to call. In nearly all cases the goods offered will be sold without regard to the price. The money they need must be raised at the time named, and the people will therefore understand that the goods must be sold, and they will be disposed of if runiously low prices will be any inducement to buyers.

Tourists for Abberdeen.

Quite a sensation was created at the Central Hotel, Thursday evening, when it was known that a couple had arrived by the evening train, pining for the untired experience of continental bliss. The party proved to be Miss Maude Kenney and Miss Eugenie Jackson, accompanied by Miss Willis A. Watson and John L. White, all from the classic confines of sweet Owen County. They were very anxious to find some one to escort them across the dark waters and into the haven of the matrimonial estate, at "Square Beasley's." They found such a guide in the whole-souled and genial Walter B. Phister, who is ever ready to assist suffering humanity, especially in cases of this kind, and his round corpulence shows with alacrity to a flattering a prospect. When they returned, beaming all over with delight, we knew how well Mr. P. had done his work.

Upon the heads of the happy couple we shower our blessings, and wish them "God's speed" upon the voyage of life.

THE CHURCHES.

Services will be held as usual at St. Patrick's Church to-morrow.

Elder R. C. Ricketts will preach at the Christian Church to-morrow morning at 11 o'clock.

There will be preaching to-morrow evening and at the First Presbyterian Church by Rev. John S. Hays.

## IN FRANCE AND SPAIN.

THE RAVAGES OF THE PLAGUE CONTINUE UNABATED.

Spain's Anger at Germany's Annexation of the Caroline Islands—Comparing the Congo District With Chossewitz's Eden — Foreign Affairs.

MADRID, Aug. 22.—Spanish irritation over Germany's annexation of the Caroline Islands is increasing. The newsmen here express indignation at the annexation. They say the act ignores the ancient rights of Spain; declare that the Spanish consul, long before the annexation was made, notified Germany that the Spanish islands of the Philippines had since last March been making preparations for an effective Spanish occupation of the Caroline Islands, and insist that in view of these circumstances the annexation is a violation of international law was inexcusable.

It is rumored that on the meeting of the Cortes Senor Elduayen, minister of foreign affairs, will resign, and that in consequence of the new situation he will before the Cross offered him by Germany. It is also thought likely that the Spanish minister at Berlin will be recalled. The Spanish newspapers have faint hopes that the Germans will abandon her claims to the islands.

The Caroline Islands, or the New Philippines, embrace hundreds of small islands, which have been ranged in forty-eight separate groups. They are situated between the Lombok and Marian Islands and New Guinea, extending from 8 to 11 degrees northern latitude, and from 148 degrees to 181 degrees eastern longitude. The first island of the group was discovered in 1505, 1507 the Portuguese Diego da Rocha. The Spaniard Alvaro de Sardova then discovered the Elvi or Mackenzie group, and in 1760 the Spanish admiral Frasquero discovered the Farallon group, which was named the Carolines in honor of Charles V. This name was later given to the entire archipelago. Normally they belong to Spain and form part of the Government of the Philippines, but they have no Spanish settlement. They have generally been considered practically independent.

### Cholera in France.

MARSEILLE, Aug. 22.—According to official announcements 100 cases of cholera have been admitted into the French hospital during the past week. No new cholera cases have occurred, which is considered an alarming proportion. The Municipal Sanitary commission, whose incapacity is notorious, has decided to prohibit the burning of fish and other refuse in the streets, and to keep further the sewers and streets. The police have commenced to issue orders against individuals fumigating their houses by means of evanescent bramants. The people are thoroughly separated at such vexatious and unnecessary proceedings. The mayor continues to withhold information about the true state of affairs and nothing is done in the way of general hygiene. The medical authorities are ignorant and continue to be reported. A woman aged 25 was bitten by her baby, which was dying of cholera, and she succumbed during the night. There were forty cases of cholera in the city, and twenty-three deaths. The epidemic is increasing in several of the neighboring towns. At Sables ten fatal cases are said to have occurred.

At Valence the situation is alarming. There were six deaths from cholera there. There are many people down with the disease both in the town and in the garrison. The cholera is creating a veritable panic there. The medical body has endeavored to throw dust in the eyes of the people, but it seems to have decided to tell the truth at last.

The Bayard, bearing the body of Andrei, was expected there soon. The vessel has neither damaged machinery, nor any typus on board, as was asserted in the official dispatches.

### The Congo Again.

LONDON, Aug. 22.—The Morning Post returns again to the Congo subject in an elaborate editorial, in the course of which it says: "From the French review of the Congo, it appears that the Committee's purchase of a settlement in Edoua was not more dubious in character or more deadly in result than the acquisition of a station in this African territory under the auspices of the international association.

The Post next reviews Dr. Allard's recent statement made in Brussels favoring the Congo settlements, and thence adds: "We are inclined to believe that Allard's intentionally over-coloring his favorable view, it is quite possible that in the interests of the association he unconsciously says things on record."

The Post, in the interests of intending emigrants to the Congo, concludes: "All who seek their home there should do so with a full recognition of the trials as well as the chances of well-doing that lie before them." Colonial legislation has forbidden the sale of arms and ammunition to the natives of the Congo state.

### Germany Taking Water.

MADRID, Aug. 22.—The German ambassador called on Senor Elduayen, the Spanish foreign minister, and delivered that official Germany's reply to the Spanish note protesting against the seizure of the Caroline Islands. The Spanish note was in identical terms and offers to submit Spanish claim to the islands to a final examination. It is reported that two Spanish war vessels have been sent from Yap Island, the seat of the Caroline Islands, to be engaged in that city against Germany is growing steadily and several anti-German demonstrations have already occurred. At a meeting of the Spanish geographical society species declarations were made that the Spanish fleet had landed and a very bitter spirit was displayed. So intense has the feeling become that the authorities momentarily expect an attack on the German embassy and have stationed a large force of police in the vicinity to guard the building.

### German Journalists.

MILWAUKEE, Wis., Aug. 22.—The first German newspaper in the United States of North America, the *Welt*, of Milwaukee, will make its appearance. An informal reception was given by the local club to the delegates of whom about thirty are present so far among them are L. A. Wallenborn of Berlin, the master of the craft, who was the first one to start a German newspaper in 1853.
